

President's Picnic Green Office Challenge

Snap a pic doing one of the behaviors below and bring it to the Office of Sustainability's table at the President's Picnic to get a reusable napkin, utensil kit, or other prize.

Energy & Water Use

I have signs posted next to light switches, power strips, or other electronics that remind me to turn them off.

Waste & Recycling

I regularly use a compost bin in the office or at home.

Paper, Printing, & Office Supplies

I save one-sided paper for printing drafts and scrap paper, and/or make it into recycled notepads.

Food, Beverages, & Dishware

I use durable and reusable dishes, utensils, and/or cups when eating on campus.

Transportation

I walk, bike, carpool, or take public transit to work at least one day per week on average.

Sustainability Planning & Leadership

My office has an active green team in our office, building, or department that meets on a regular basis.
